

## Edmond Chee

A hobbyist photographer since his teenage years, Edmond enjoys taking photos during his walks in the city and out in nature.

He started his photography journey with a Minolta X-700, and switched to digital photography on a 1.3 megapixel Olympus Camedia digital camera!

Edmond joined The Photographic Society of Singapore in 2021, and enrolled in The Black & White Fine Art photography course to challenge himself to visualise in monotone, and to present his images as architectural artwork.

Edmond was thrilled to be able to share some of his images at The Magic of Black & White Exhibition in 2023.
